Program Description

This program offers grants to support local family literacy projects that integrate early childhood education, adult literacy (adult basic and secondary-level education and instruction for English language learners), parenting education, and interactive parent and child literacy activities for low-income families with parents who are eligible for services under the *Adult Education and Family Literacy Act* and their children from birth through age 7. Teen parents and their children from birth through age 7 also are eligible. All participating families must be those most in need of program services.

Six percent of the annual appropriation is set aside for family literacy grants for migratory worker families, the outlying areas, and Indian tribes and tribal organizations. In addition, the Department must award one project in a women's prison. Up to 3 percent is reserved for national evaluation and technical assistance. The remaining federal funds are allocated by formula to SEAs, based on their relative shares of Title I, Part A, funds. SEAs make competitive subgrants to partnerships of LEAs and other organizations, giving priority to proposals that primarily target areas with large numbers of most-in-need families or to projects located in empowerment zones or enterprise communities. The statute also requires that subgrants be equitably distributed among urban and rural areas and that local projects assume an increasing share of program costs each year. The increasing share of the program expenses ranges from 10 percent in the first year to 40 percent in the fourth year. Cost-sharing for years five through eight is 50 percent, and, after the eighth year of federal Even Start funding, cost share is at least 65 percent.

Types of Projects

Projects provide for early childhood education, adult literacy (adult basic and secondary-level education and instruction for English language learners), parenting education, and interactive parent-child literacy activities for participating families, often through other entities providing these services, such as government agencies, colleges and universities, public schools, Head Start programs, and other public and private community-based groups.

Projects operate year-round and provide staff training and support services, such as child care and transportation, when unavailable from other sources, to enable participation in core education activities.
